

Power Supply Replacement

For Broadband International® 2PAC-M and 2PAC-C, and ARRIS®/Magnavox®/C-COR® Line Extenders

The Broadband International® power supply fits the 2-PAC-M and 2PAC-C line extenders, as well as replaces existing Magnavox® 6-LE, and ARRIS® 321, and C-COR® 331 series power supplies. This modular power supply fits into the existing power supply location.

This power supply has all-new components with state of the art technology, making it up to 80% efficient (depending on load). It accepts either sine wave or Quazi-square wave inputs.

Slight modification to the OEM chassis may be required when installing in certain OEM products.
