

Center Seizure Assembly

For C-COR® Line Extenders - later 1 GHz OEM E-7 Housing

Top Side

Bottom Side

The BBI 684100-K replaces the OEM baseplate in the 1 GHz -C-COR- E7 Series housing where the stand-off for the seizure assembly board is located in the housing. Operations to 1 GHz without test point connections to ensure a flat frequency response to 1 GHz. The BBI seizure kit includes both the right and left seizure assembly boards.
